2 7 EXPLANATION

2 8 This bill modifies requirements applicable for licensure as

2 9 a Class B master electrician or a Class B journeyman

2 10 electrician pursuant to Code chapter 103. Currently, an

2 11 applicant who can provide proof that the applicant has been

2 12 working in the electrical business and involved in planning

2 13 for, laying out, supervising, and installing electrical

2 14 wiring, apparatus, or equipment for light, heat, and power

2 15 prior to 1990 may be granted a Class B master electrician

2 16 license by the electrical examining board without taking an

2 17 examination. The bill changes the condition for licensure  
2 18 without an examination to performing the applicable work  
2 19 activities since January 1, 1998, and for a total of at least  
2 20 16,000 hours, of which at least 8,000 hours shall have been  
2 21 accumulated since January 1, 1998. Similarly, an applicant  
2 22 who can provide proof that the applicant has been employed as  
2 23 a journeyman electrician may currently be granted licensure as  
2 24 a Class B journeyman electrician without taking an examination  
2 25 if so employed since 1990. The bill makes a corresponding  
2 26 change in the condition for licensure as a Class B journeyman  
2 27 electrician without an examination to employment since January  
2 28 1, 1998, and for a total of at least 16,000 hours, of which at  
2 29 least 8,000 hours shall have been accumulated since January 1,  
2 30 1998.

2 31 The bill takes effect upon enactment.
